

# Potable hardness tester

เครื่องทดสอบความแข็งพกพา

## IREI-150

### Features

- Wide measuring range. It can measure the hardness of all metallic materials. Direct display of hardness scales HRB, HRC, HV, HB, HS, HL and three types of strength values immediately
- Large screen LCD, showing all functions and parameters. With EL background light
- Seven impact devices are available for special application. Automatically identify the type of impact devices, and with the user calibration function
- Test at any angle, even upside down
- Large memory could store 100 groups (Relative to average time 32 every group) information including single measured value, mean value, impact direction, impact times, material and hardness scale, etc.
- Battery information showing the rest capacity of the battery and the charge status
- Original imported high speed thermal printer support the immediate printing function. It can save data permanently
- NI-MH rechargeable battery as the power source. Charge circuit integrated inside the instrument. Continuous working period of no less than 150 hours (EL off and no printing)
- Auto power off to save energy
- Excellent after-sale service system for high quality products-two years guarantee and all life maintenance. Easy to buy and comfortable to use

### Specifications

Measuring range	HLD (170 960)
Measuring direction	360 degree (up, down, horizontal, slanting up, slanting down)
Hardness scale	HL, HB, HRB, HRC, HRA, HV, HS
Display	segment LCD
Data memory	100 groups max. (relative to impact times 32 every group)
Printing paper	width is (57.5+/-0.5)mm, diameter is 30mm
Battery pack	6V NI-MH
Battery charger	9V/500mA
Continuous working period	about 150 hours (with backlight off, printing)
Communication interface	USB 1.1
Outline dimensions	212 x 80 x 32
