

Iultcs Leather Rubbing Tester For Colour Fastness Standard Veslic Rubbing Test SPHY-759

Purpose:

Iultcs Leather Rubbing Tester For Colour Fastness Standard is used to carry out the rub fastness test on the surface of leather according to method IUF450 (international union of leather chemist societies), so as to determine the amount of marring of the leather surface or test abrasion resistance of insole board.

SPECIFICATION

MODEL	SPHY-759
Specimen	120x20mm
Wool flet	15x15mm
Counter	Six LCD liquid crystal display
Motor	AC micro-motor
Dimension	30.5x43x47.5cm
Testing block size	15x15mm
Abrasion stroke	38+-2mm
Test speed	40+-2mm
Pillar load	500+-25g
load weight	500+-10g
Weight	33kg
Power	AC220V 60W
