SPECIMEN GRINDING & POLISHING

MP-2E N

www.itokin2000.com

NEW

Model MP-2E N Metallographic specimen grinding & polishing machine is equipped with double discs, and it can finish grinding or polishing with three different speeds. The rotating speed can be switched between 300rpm / 600rpm / 900 rpm. With double disc and different grinding and polishing materials, it can realize the process of rough grinding, fine grinding, rough polishing and finishing polishing. This machine features easy operation and economical applying. It is the ideal specimen preparing instrument for using in factories, scientific research institutes and laboratories of colleges.

Application and Feature

- Three constant speeds of 300 rpm / 600 rpm / 900 rpm
- Quick exchanging disc. The working disc can be changed and replaced swiftly.
- Equipped with water cooling tap.

Specifications

- Diameter of grinding disc (with groove): Ø230mm (200mm or 250mm disc is optional)
- Diameter of polishing disc: Ø200mm (250mm disc is optional)
- Diameter of sand paper or polishing textile: 200mm (250mm optional)
- Rotating speed of grinding disc & polishing disc: 300rpm / 600rpm / 900 rpm (switchable)
- Motor power: 750W
- Power supply: Single phase, 220V, 50Hz
- Dimensions: 70 × 67 × 32 cm
- Net weight: 45 Kg
