

SZW601J

**Industrial joystick video borescope
with HD resolution Pixels 1 million, 4mm
camera lens**

Main features:

- Portable 5.0 inch, 1 million pixels, the whole machine weighs less than 600g
- High brightness Rear LED illumination, can adapt to different detection needs
- Large depth of field 5mm -- 120mm large depth of field
- High precision Mechanical guidance, 360 degree arbitrarily rotating, precise control 0 delay
- Super wear-resistant four-layer tungsten braided tube, waterproof, wear-resistant, anti-corrosion
- Super battery life Replaceable battery, continuous operation \times 5 hours
- High-brightness display Wide-angle high-brightness LCD
- Steering flexibility After two turns, it can also rotate 120 degrees

Bending angle	$\leq 180^\circ$
System / Software	
Pictures/video format	JPG/MP4
Pictures control	Taking photos, recording, Zoom, freeze, flip, replay, simulate ruler, etc.
System language	Chinese, English, etc 9 languages
Operation environment:	
Body temperature	-10°C ~ 50°C
Probe lens camera	-20°C ~ 70°C
Storage temperature	-20°C ~ 60°C
Relative humidity	Max 90%
Waterproof standard	IP67
Body specifications:	
Size	260*120*82mm
Battery	≥ 5 hours
Monitor	5.0 inches IPS LCD
SD card	16GB
Video output	HDMI
Forward	
Pixels	1000000
Camera lens diameter	6mm
Cable length	1.5 M
FOV	90, 120degrees optional
Forward illumination	≤ 50000 lux
DOF	5-120, 3-20, 50-infinity
Direction	360degrees rotation
