

ITKLR-N002

INK PROOFER

Specification:

Suitable for lithography, letterpress ordinary or UV ink UV ink

Automatic ink-type spreading-colour meter:

Input voltage: AC220V 50Hz machine power: 250W

Ink strip effective area: 40X210mm (4) 60X210mm (3)

100X210mm(2 bars), optional

Size: 270X250mm

Speed of uniform ink: three direct speed adjustment, 400, 550, 700 RPM

Blending time: 15 to 99 seconds adjustable

Printing pressure: -1 to +1 mm manual adjustment

Uniform ink pressure: external cover side manual adjustment

Color and ink mode: automatic

Device dimensions: 525x430x280mm

Total net weight: about 75KG

Features: double CAM uniform ink pressure balance structure, uniform ink speed intelligent automatic switching.
